OVERVIEW

The Bachelor's Degree in Economics and Finance (BSEF) programme has been developed to enable students to gain economic reasoning, quantitative skills and practical experience that would qualify them to become business leaders in today's market. The programme offers in depth knowledge in economics and finance through different means such as lectures, projects, field trips, simulations, internships, case studies, industry speakers, seminars, and various statistical software.

The programme helps students to gain knowledge in the field of microeconomics and macroeconomics theories and practices, econometrics, industrial and international economics, sustainability and digital economy, taxation, public finance, financial management, investment and portfolio management, and international finance. In addition, graduates obtain entrepreneurial skills and knowledge, whereby they are encouraged to start up their own businesses.

PROGRAMME AIMS

The aim of the Economics and Finance programme is to:

- To equip students with in-depth knowledge and multi-perspectives on sustainable economics and finance.
- To provide student with competence to practically apply professional standards related to economics and finance.
- To develop student's innovation and leadership potential through a variety of soft skills such as communication, teamwork and global citizenship.
- To develop awareness and appreciation for social and ethical responsibilities at the societal and global levels.
- To equip students with creative and innovative skills to adapt lifelong learning and research.

GENERAL STATISTICS

ENTRY REQUIREMENTS

Admission to Ahlia University (AU) is selective based on academic achievements. Applications are welcomed from all students regardless of race, colour, gender, religion, nationality, physical or learning disability. Admission is purely based on merit.

General Requirements

To be eligible for consideration for admission to the undergraduate programmes, applicants must meet the following entry requirements set by the university in-line with Bahrain Higher Education Council requirements:

- The applicant must hold a recognised and endorsed secondary school certificate or its equivalent
- The applicant must be medically fit for the academic programme they wish to enrol in

Specific Requirements

The applicants who meet the following programme specific admission requirements will be admitted to the programme:

Bachelor's Degree in Economics & Finance	Academic Score in the Secondary School Certificate (Tawjihia) or its Equivalent

STUDY PLAN

First Year

During the first year, students are exposed to a range of foundation level courses such as microeconomics, macroeconomics, accounting, management, IT and language oriented courses. The first academic year starts the students off with the basic required knowledge for them to initiate their journey into the field of economics & finance.

Second Year

In the second year, the student develops further understanding of economics and finance. Students also learn about the microeconomics and macroeconomics theories, statistics and modern history of Bahrain. MIS and marketing are other courses taught in second year level. At this stage, students develop their understanding from basic knowledge to the deeper level of economics and finance.

Third Year

In the third year of a student's academic journey, subjects include international economics, econometrics , one major elective along with finance course. Further, students will learn money and banking, business and banking law, international finance, insurance and re-insurance, Business statistics and ethics.

Fourth Year

During the fourth year, the student is expected to study industrial organization, quantitative analysis for business, credit analysis and lending, research method, Taxation, investment, monetary and financial systems and can choose one major elective and two free elective.

Moreover, students, this year are required to undertake a final capstone project. This gives them a unique opportunity to pursue original scholarship on topics of their choice in the area of economics and finance under the supervision of a member of the faculty.

Students are encouraged during their university life to get engaged in curricular and extra-curricular activities including attending guest lectures, seminars, conferences, participate in student clubs activities, local and international competitions, sports, and other social activities.
