

Student Merit Discount Policy

Student Merit Discount Policy

Ahlia student discount policy which is based purely on merit of academic achievement has been in action since the inception of Ahlia University. Following extensive experience with this policy, the university find that it is appropriate to present a revised policy as follows:

Students who receive discounts based on their school results will maintain the discount subject to achieving required cumulative GPAs. Students who fall below the required GPA can still benefit from the merit discount whenever they achieve the required GPA. The table below summarized the student merit discount.

| School % result | Discount given as % of fees | Minimum cumulative GPA required |
|------------------------|------------------------------------|----------------------------------------|
| 80 to 89.9 | 20 | 2.5 |
| 90 to 94.9 | 25 | 2.75 |
| 95 to 96.9 | 50 | 3.0 |
| 97 and above | 70 | 3.5 |

This policy will be effective for all current and newly admitted students starting from the first semester 2018/2019.
