## 4. REGISTRATION PROCEDURE, EXAMINATION AND GRADING

### 4.1 Student Identity Card

After completing the admission process, students are issued with university ID card containing their name, photo, college and programme. Students must be prepared to present their ID card at any point within the various departments of the university

The student ID cards are also used as an identity for using the university car parks, exam entry, library access, etc. Students are not allowed to give their ID cards to anyone else, inside or outside the university.

### 4.2 Student Email

Upon admission, each student is issued a unique Ahlia University email which will be used as the official means of communication between the student and Ahlia University faculty and administrative staff. Please note that it is mandatory to use the Ahlia email and that personal emails will not be used as an official mean of communication by the University. All students must therefore check their Ahlia email on a regular basis.

### 4.3 Credit Hour System

Courses are weighted in terms of credit hours. One semester credit hour is equivalent to 15 lecture hours per academic semester, or from 30 to 45 laboratory or training hours. Courses are designated by an index of three numbers.

The first number refers to lecture hours per week, the second to laboratory hours and the third to credit hours. Thus, if a course is indexed with (3-2-4) for example, this means that 3 stands for lecture hours per week per semester, 2 stands for laboratory hours per week per semester, and 4 is the sum of lectures and laboratory hours in terms of credits.

### 4.4 Grading Systems

The university adopts a letter grading system that includes plus (+) and minus (-) indicators. The following table, which should be used as a guideline, shows each letter grade with its equivalence in terms of grade points and percentage:

LETTER GRADE	GRADE POINTS	PERCENTAGE
A	4.00	90-100
A-	3.67	87-89
B+	3.33	84-86
B	3.00	80-83
B-	2.67	77-79
C+	2.33	74-76
C	2.00	70-73
C-	1.67	67-69
D+	1.33	64-66
D	1.00	60-63
F	0.00	Below 60

Five more letter symbols are in use: "W", "I", "IF", "IG" and "IP".

"W" stands for Withdrawal.

"I" stands for incomplete work and is normally awarded to students who do not fulfil all course requirements by the end of the semester and who present a valid excuse acceptable to the course instructor. The grade of "I" is assigned by the course instructor and not the student.

The course requirements must be completed any time before the end of the following semester. If within the designated time period the student fails to complete/attend his/her final exam the "I" is converted to "IF" grade. In case where student is still missing any other course requirements (e.g. quizzes, assignments .etc) the student's final grade will be calculated based on those requirements that have been met. "IG" (In Progress) grade is assigned to students who are still working on their dissertation, and is governed by the same rules as the "I" grade, but it is converted to "IW" designating a failure in completing requirement. "IP" grade is assigned to students who pass their dissertation or internship.

#### 4.5 Grade Point Average (GPA)

The Grade Point Average (GPA) is an index representing the students' academic achievement. The computation of the GPA is determined as follows:

1. Each letter grade is assigned grade points (Refer to **Grading Systems** ).
2. These points are multiplied by the credit hours of the corresponding course to obtain "quality points" for each course.

3. The total quality points are divided by the total semester credit hours officially undertaken by the student. A GPA may range from 0.00 to 4.00; calculations are carried only to two decimal points.

For purposes of academic evaluation, two types of GPA are used:

\*Semester GPA which is based on courses taken during any given semester.

\*Cumulative GPA (CGPA) which is based on all the academic work taken at the university, thus far.

#### 4.6 Challenge of Grade

Upon submission of a Challenge-of-Grade Form and payment of any stipulated fees, students have the right to challenge their end-of-semester grades provided that the deadline to challenge has not been exceeded.

The deadline for challenging a grade is the end of the subsequent semester to the semester in which the challenged grade was awarded. For the purposes of this deadline, the summer session does not count. Upon being officially informed of the challenge of grade by the Directorate of Admission and Registration, each department, under supervision of its chairperson, sets up an ad hoc committee of three faculty members to review challenged grades.

Grades may be raised or kept unchanged at the discretion of the committee and all grades reviewed accordingly are final, i.e. not subject to further review.

#### 4.7 Adding and Dropping Courses

Students are allowed to add and drop courses during the Add and Drop period as specified in the Academic Calendar, which normally falls during the first week of the semester. Following the Add and Drop period, students may withdraw from their courses but the letter "W" will be inscribed on their records. For further information, please refer to the withdrawal policy.

#### 4.8 Examination Information and Regulations

The dates of the final examination period are specified in the Academic Calendar for each semester, which normally falls after the last day of classes. The final examination schedule is issued by the Directorate of Admission and Registration directly after the add and drop period of a specific semester. The student personalized final examination schedule will be reflected in their course schedule in ADREG system and the full examination schedule is posted on Ahlia University Website.

#### 4.8.1 Examination Rules and Regulations

1. Students must be present at the examination hall 10 minutes prior to the start of the exam.
2. Students will not be permitted to enter the examination hall after half the time of the exam has elapsed.
3. Students must present their university ID card and their exam card in order to be permitted to enter the exam hall.
4. The exam card may be printed by the student through the ADREG Online Student Information System, or by making a request to the Directorate of Financial Affairs.
5. Students must leave all textbooks, learning resources, PDAs and web-access devices outside the examination hall. Only approved calculators are allowed.
6. Students must leave their mobile phone devices outside the examination hall. Students carrying their mobile phone devices must ensure that the device is switched off at all times while inside the examination hall, or else they risk being in violation of the final examination rules and regulations.
7. Students may not leave the examination hall before half of the exam time has elapsed.
8. Where a student is caught cheating in an exam, regardless of the nature of cheating, this is considered as violation of the final examination rules & regulation. Students caught cheating will be reported to the Deanship of Student Affairs, which will deliberate through an Exam Disciplinary Committee. This process may result in the student receiving "F" grade and/or a written warning.
9. All results are published on, and can be accessed through, the ADREG Online Student Information System. Students should not contact the instructor of the course to enquire about their examinations results.
10. Invigilators are authorized to give students verbal warnings, confiscate any cheating materials, have the student moved to another examination hall, and confiscate the student's exam paper and answer sheet and escort him/her out of the examination hall.
11. Students are responsible for making themselves aware of all rules and regulations, including policies governing Student Behaviour and Conduct, and Academic Integrity (and Misconduct).

#### 4.8.2 Student Testing and Assessments during Course

Ahlia University Assessment Policy is committed to ensuring that the schedule, methods, criteria and guidelines of all assessments used during the course to assess and evaluate the students' achievement of the course learning outcomes are clearly defined and transparent to all students.

At the beginning of the semester students will be given a clear schedule of the course assessments together with information on the topics and ILOs covered by each assessment and the assessment and evaluation criteria and guidelines used in the course. During the semester, students should be given sufficient notice of these assessment criteria before submitting their work.

#### 4.8.3 Feedback on Student Assessments

The University considers the feedback given to the students regarding their performance in the course assessments as a crucial and integral part of the learning process. Students should obtain regular and constructive feedback on their academic performance and attainment of the course learning outcomes from their respective course instructors. Feedback should be given to the students regarding their performance on the previous assessment and before the next assessment method is due. Students will receive informative and constructive feedback on their academic performance on all assessments taken during the study period before the final examination.

#### 4.9 Visiting and Study Abroad Students

Visiting students are non-degree seeking students who are taking courses at a host institution while maintaining full-time enrollment in another institution.

Ahlia University students may apply for study abroad allowing them to spend up to one full academic year at a foreign institution of higher education. An Ahlia outgoing study abroad student will be considered a visiting student at the Host institution, and credits earned during the Study Abroad period may be transferred back to Ahlia University (Home Institution) towards the degree programme and the external transfer of credits rules and regulations apply. For further details, please see the corresponding Visiting students policy.

### 5. WITHDRAWALS

---

Ahlia University encourages continuous enrollment of students according to their study plan until all their programme requirements are fulfilled. The University recognizes however the need for some students to withdraw temporarily from any specific semester due to special extenuating circumstances.

#### 5.1 Official Temporary Withdrawal

Any student request for official temporary withdrawal must be made during the scheduled Add/Drop period to prevent the accumulation of tuition fees and other charges. If a student applies for official temporary withdrawal during the Add/Drop Period, the student will be dropped from all the courses in which s/he was registered in that specific semester without any charges or consequences; otherwise, actions will be taken as follows depending on the time of withdrawal.

After the withdrawal period the student must complete the re-registration process in order to register in courses by the end of their approved official temporary withdrawal period. Students who fail to register in any course upon the end of their official temporary withdrawal period will be considered unofficially withdrawn and their statuses will be changed to "Unofficial Withdrawal".

## 5.2 Unofficial Withdrawal

Students who fail to register for any course in a specific semester without an approved official withdrawal request will be considered as unofficially withdrawn from that specific semester.

## 5.3 Permanent Withdrawal from the University

Ahlia university students may apply for permanent withdrawal from Ahlia University. Students can apply for Official Permanent Withdrawal during the Add/Drop period, but after the end of Add/Drop period students who apply for Official Permanent Withdrawal will get (W) grade for all the registered courses in that semester.

## 5.4 Fees Related to Withdrawal

In the event that a student withdraws for justifiable reasons after registration, the following refund schedule will be applied for the first and second semesters only:

During the Add/Drop period	100% of tuition
During the two weeks after the Add/Drop period	50% of tuition
After the end of the two weeks following the Add/Drop period	no refund
For the Summer Session the following refund schedule will be applied:

# 6. UNDERGRADUATE PROGRAMMES ACADEMIC RULES AND REGULATIONS

## 6.1 Academic Load

The number of credit hours in which the student registers in any semester is referred to as the academic load. Normally, the academic load for a full time student in a normal semester is between 12 and 19 credit hours. A summer session academic load is normally between 3 and 10 credit hours. Under special circumstances, and for one semester only, the chairperson of the department concerned may allow a full time student to register for less than 12 credit hours. Permission to register for the maximum allowed number of credit hours (21 credit hours in a normal semester and 13 credit hours in a summer session) may be granted upon the approval of the chairperson of the department concerned, and by satisfying one of the following two conditions:

1. The student CGPA is not less than 3.00.
2. Credits are needed to complete graduation requirements.

## 6.2 Length of Study

Ahlia University requires all students to complete their academic degree requirements without exceeding the maximum length of study specified for each academic degree program. The length of study for any student in any academic program offered by the University is defined as the period the student spends in the program which includes any period in which the student has suspension or withdrawal (official or unofficial) status.

The maximum length of study allowed for any undergraduate student is 8 academic years starting from the first semester in which they are enrolled; as per the university policy which is in line with the Higher Education Council (HEC) regulation.

## 6.3 Repeating Courses
