OVERVIEW

The Bachelor's Degree in Economics and Finance (BSEF) programme has been developed to enable students to gain economic reasoning, quantitative skills and practical experience that would qualify them to become business leaders in today's market. The programme offers in-depth knowledge in economics and finance through different means such as lectures, projects, field trips, simulations, internships, case studies, industry speakers, seminars, and various statistical software.

The programme helps students to gain knowledge in the field of microeconomics and macroeconomics theories and practices, econometrics, industrial and international economics, public finance, financial management, investment and portfolio management, and international finance. In addition, graduates obtain entrepreneurial skills and knowledge, whereby they are encouraged to start up their own businesses.

PROGRAMME AIMS

Upon graduation from the BSEF programme students will:

- Have undertaken a comprehensive training in theory and practical applications of both economics and finance.
- Be able to recognize and employ analytical tools to a wide range of economic issues related to the environment, business and consumer behavior, economic policies, and various markets.
- Gain the competencies necessary to demonstrate sound judgements in problem-solving in economics and finance.
- Be able to work at the intersection between two interrelated fields: economics and finance.

200 Level Courses - 11 courses (BD 330 Per Course)	BD 3,630
300 Level Courses - 11 courses (BD 360 Per Course)	BD 3,960
400 Level Courses - 11 courses (BD 390 Per Course)	BD 4,290
TOTAL	BD 16,840

STUDY PLAN

First Year

Year 1 involves in taking orientation courses in English, Mathematics, IT, and principles of Macroeconomics and Principles of Microeconomics. Year 1 is the building block for the BSEF degree where students get the opportunity to enrol in courses with basic knowledge and understanding level outcomes with simple applications to real life examples to develop the familiarity towards the subjects and be prepared for higher level courses.

Second Year

The second year builds further on English language skills and Maths by introducing the students to higher level Maths, English writing and also by introducing them to statistics which is essential for pursuing Econometrics as a course in the following year. In Economics and Finance, students take up intermediate level courses to be ready to pursue advanced subjects in the following years.

Third Year

Year three provides students with the opportunity to take up advanced level courses in Economics and Finance along with electives in this area. The courses range from Risk Management, Corporate Finance, Business law in Finance to International Economics, Econometrics and others.

Fourth Year

This year the students will take electives and range of courses in advanced Economics and Finance. They will also complete the remaining course requirements towards completion of their degree.

These courses enable them to understand and appreciate the complexities of real world phenomena in the areas of monetary and financial economics, government spending and revenue decisions, investment strategies of firms and countries and others.

Students are encouraged during their university life to get engaged in curricular and extra-curricular activities including attending guest lectures, seminars, conferences, participate in student clubs activities, local and international competitions, sports, and other social activities.
