# CAREERS DAY

Ahlia University invites organisations from the private and public sectors to attend our annual event.

## BENEFITS TO YOUR ORGANISATION

Raise brand awareness with students, graduates and faculty

Increase your corporate social responsibility activity

Meet some of our future graduates: your potential employees

Discuss employment and internships with Ahlia staff

# INTERNSHIPS

Ahlia University is looking for new partners to offer internships for our third-year students.

## **BENEFITS TO YOUR ORGANISATION**

Add to your corporate social responsibility activity

Invest in the youth of the Kingdom of Bahrain

Partner with the top private university in the Kingdom

Add value to your company

# JOIN THE PROFESSIONAL RELATIONS DIRECTORATE

# DIRECTORATE SERVICES

Services provided by the Professional Relations Directorate cover the following six areas.

## INTERNSHIPS

The Directorate contacts and visits employment and training departments in the public and private sectors throughout Bahrain in order to create real opportunities for training our students, whatever their programme. After establishing the number of training vacancies each organisation can provide, an academic supervisor and organisation supervisor are appointed to track and report on the performance of each student. Each student also submits five reports throughout the duration of their internship, describing the skills and experience they have gained. In line with the Ahlia University training strategy, we aim to provide opportunities for all Ahlia students to experience the working environment and to understand and develop skills in communications and work ethics alongside practical skills.

## RECRUITMENT

The Directorate liaises with private companies and public organisations to facilitate the recruitment process via the Ahlia Careers Day. The Directorate aims to provide students with information on graduate training and career opportunities available to them. We also aim to inform students on employer requirements, the theoretical knowledge and practical skills required by each profession and to provide guidance and assistance to those who wish to improve their professional skills. We provide employers with detailed information on our graduates and help them to find the best qualified graduate employees.

## CAREER PREPARATION EVENTS

Ahlia University believes in the importance of preparing students to enter the employment market. Developing the right skills, understanding employer needs and helping students take advantage of the opportunities available to them is critical to our graduates' success. The Directorate hosts a number of events to develop both practical and soft skills for students and graduates to help prepare for a successful future career.

## WORKPLACE FIELD TRIPS

The Directorate, in cooperation with the Ahlia Colleges, organises regular field visits to public and private organisations. This helps students understand the functions of departments and different job roles within companies or organisations and aids their decision-making about career choices.

## STUDENT/EMPLOYER RESEARCH

Ahlia students carry out a wide variety of research projects in their academic work, and many organisations partner with us to support these activities. The Directorate manages all aspects of the research partnership from registering the students and assigning an academic supervisor and acts as the link between the company or organisation and the student.

## ALUMNI SERVICES

The University is rightly proud of its alumni community and the University ensures continuity of communication following graduation through the Alumni Club. The Club offers its members numerous educational, cultural and sporting activities and maintains the relationship between our alumni and the University. All Ahlia graduates have access to careers advice and we continually support and take an active interest in the careers of our alumni, encouraging their progress throughout their professional life and contributing to their continued success.

## CAREER COUNSELLING UNIT

The Career Counselling Unit provides guidance and support to students towards developing their employability skills and professional competencies through career counseling and advising on matters related to development of their career objectives, goals, or plans. Additionally, the unit periodically follows up on available and potential job vacancies in the public and private sectors and arranges for job interviews for students.

Ahlia University partners with many organizations across all fields in the public and private sectors. Our sector partners assist us by providing internship opportunities; hosting student field trips; helping us with workshops; and liaising over recruitment. In addition, they give support to student research projects; they deliver guest lectures and act as members of our college advisory boards. The Professional Relations Directorate is responsible for creating links between students and the job market and enhancing university-industry collaboration in support of graduate career development and the University's employability goals.
