

Ahlia University Sustainability Policy

Ref: UC/P 647/2023

As approved by University Council Decision No. UC/2434/10/2022-23 of meeting No. UC/10/2022-23 held on Monday the 26th of June 2023.

Ahlia University Sustainability Policy

Ahlia University seeks to contribute to the sustainable development of its community through promoting the following sustainable practices:

1. Encourage academic faculty and students to publish research covering a wide range of sustainability aspects.
2. Encourage the use of recycled long life building materials in construction, renovation and refurbishment work.
3. Commit to reducing campus electricity consumption by using electric timers, heat insulations and purchasing low electrical consumption devices.
4. Encourage staff and students to enhance food consumption habits to healthy habits mitigating health risks and unnecessary food waste.
5. Collaborate with society to recycle unnecessary materials considered as garbage waste.
6. Participate in the Annual Earth Day and encourage students to attend sustainable activities.
7. Commit to using renewable energy.
8. Commit to using biofriendly cleaning materials.
9. Commit to upgrading its operation system to go digital.
10. Collaborate with society to encourage the protection of natural wildlife environment.
