

Programme Specification

Programme Specification	
1. Teaching Institution	Ahlia University
2. College	College of Medical and Health Sciences
3. Programme Title	Bachelor of Science in Physiotherapy (BSPT)
4. Title of Final Award	Bachelor of Science in Physiotherapy (BSPT)
5. Modes of Attendance offered	Attendance is compulsory (full time)
6. Accreditation	Initially locally accredited followed by internationally accredited.
7. Other external influences	External Evaluator Report Stakeholder Feedback
8. Date of production/revision of this specification	25/06/2024
9. Medium of instruction	English
10. Aims of the Programme	
<ol style="list-style-type: none"> To be equipped with advance knowledge and understanding related to Physiotherapy as described by the academic, professional, and statutory bodies. To be equipped with applied knowledge to exercise professional and ethical judgment in the practice of the Physiotherapy profession. To be equipped with critical evaluation skills develop to evaluate current trends in the practice of the profession based on the latest evidence and health-care research methodology. To be equipped with digital competence and lifelong learning skills, including research and sensitivity to ethical issues and social responsibility to transform sustainable business practices. 	
11. Learning Outcomes, Teaching, Learning and Assessment Methods	
A. Knowledge and understanding	
A1	<u>Concepts and theories:</u> Demonstrate an advanced understanding of key principles, theories and concepts of biological, physical, physiological, and behavioural sciences in relation to Physiotherapy which form the foundations of Physiotherapy practice.
A2	<u>Contemporary Trends, Problems and Research:</u> Use specialised level of skills to conduct research on the latest developments, problems and controversies in the field of Physiotherapy uncovered by research.
A3	<u>Professional responsibility:</u> Demonstrate adherence to professional standards and practices related to activities of the Physiotherapist.
B. Subject-specific skills	
B1	<u>Problem Solving:</u> Use specialised level of skills to apply quantitative and qualitative techniques to systematically evaluate the data/ evidence in the field of Physiotherapy practice.
B2	<u>Modeling and design:</u> Apply specialised level scientific process, including models of Physiotherapy practice in promoting individual health, public health, and well-being.
B3	<u>Application of Methods and Tools:</u> Use specialised level of Physiotherapy techniques and principles of examination to gather data for appropriate delivery of Physiotherapy services to clients/ client groups.
Teaching and Learning Methods	
Lectures, group discussions and debates, demonstration and practical sessions, assignment and problem solving, case studies and projects, project supervision	
Assessment Methods	
Oral participation, assignments, quizzes, tests, final exams, projects and presentations, and project supervision	

C. Critical-Thinking Skills	
C1	<u>Analytic</u> : Demonstrate critical evaluation with consideration of physical, psychological, and socio-cultural needs.
C2	<u>Synthetic</u> : Use information from the patient assessment to construct effective plan of care in liaison with the client with reference to the patient's physical, psychological, and sociocultural need.
C3	<u>Creative</u> : Demonstrate insight in the application of current approaches and trends used in the delivery of Physiotherapy services.
Teaching and Learning Methods	
Lectures, group discussions and debates, demonstration and practical sessions, assignment and problem solving, case studies and projects, project supervision	
Assessment Methods	
Oral participation, assignments, quizzes, tests, final exams, projects and presentations, and project supervision	
D. General and Transferable Skills (other skills relevant to employability and personal development)	
D1	<u>Communication</u> : Use specialised level of skills to communicate effectively with members of the multi-disciplinary health care team, clients, carers, public as well as external regulatory authorities.
D2	<u>Teamwork and Leadership</u> : Coordinates with industry counterpart and partners including health professionals with regard tasks and responsibilities including the ability to work effectively as a member of the organization.
D3	<u>Organisational and Developmental skills</u> : Operate at specialized level with accountability to develop for physiotherapy standards and clinical practices.
D4	<u>Ethics and Social Responsibility</u> : Demonstrate ethical responsibility while conducting physiotherapy practices

The Bachelor of Science of Physiotherapy (BSPT) is offered with practical learning that is conducted within Ahlia University laboratories as well as Medical Health Centres. **Note that the external Medical Centres will be allocated as per the class size and types of clinical practice specialization.**
